Dear Sir Robert

Dr Lowry informs me that the military authorities demur at his teaching during the morning but they have given him to understand that if the University authorities will request that he be allowed to teach on Tuesday and Friday mornings the request may be granted by Headquarters at Ottawa. He is absolutely essential to us in order to carry on the work properly. Would you then be so good as to make the request officially. Dr Lowry also informs me that there is quite a possibility that his army work may be handed over to

the Soldiers Civil Reestablishment Department – in which case the refusal of the Department to let him give us two mornings out of the week seems to me to be less justifiable.

Truly yours

James MacCallum

Dear Sir Robert

I have just returned from the north and find your note of 19th — instant re Hospital appointments — as I recall them there is no change — acting on your suggestion I wrote Dr. Colin Campbell accepting his resignation from the teaching staff

Yours truly

James MacCallum
